1989 Annual Report and Summary of Annual Statements

55th Annual Report and Summary of Annual Statements

by the Illinois Director of Insurance to James R. Thompson, Governor

For Year Ending December 31, 1989
(including Fiscal Report for Year Ending June 30, 1989)

STATE OF ILLINOIS
DEPARTMENT OF INSURANCE
SPRINGFIELD, ILLINOIS 62767

OFFICE OF THE DIRECTOR

Honorable James R. Thompson
Governor
State of Illinois
Springfield, Illinois

Dear Governor Thompson:

I am pleased to submit this Annual Report summarizing the major activities and regulatory programs of the Department of Insurance for the period January 1 through December 31, 1989, followed by a summary of the financial data of all insurance companies licensed in Illinois during this twelve-month period.

The past year marked several transitions for the Department of Insurance, the most notable of which were the appointment of my predecessor, John E. Washburn, as Deputy Governor; the appointment of Assistant Director Richard W. Carlson as Executive Director of the Illinois Comprehensive Health Insurance Plan (CHIP); and the unexpected death of our Property/Casualty Division Deputy Director, Kenneth W. Smith, which resulted in a major reorganization of our financial and corporate regulatory initiatives.

Ken was a highly respected insurance regulator and valued staff member whose passing will be felt for some time. It is a credit not only to his memory, but to the contributions he made to quality insurance regulation in Illinois that he has been honored by the National Association of Insurance Commissioners, as well as by the Illinois insurance industry which is working now to establish a memorial fund in his name.

Respectfully submitted,

Zack Stamp
Director of Insurance

Comprehensive Health Insurance Plan (CHIP)

On January 31, 1989, Governor James R. Thompson signed legislation appropriating nearly $5.8 million to begin the Illinois Comprehensive Health Insurance Plan (CHIP). Based on that appropriation, the CHIP Board of Directors determined that initial enrollment in the program would be limited to 4,000 policyholders.

CHIP provides coverage for people who can afford, but are unable to obtain private health insurance because of physical or medical conditions or who are paying higher premiums because of existing medical conditions. CHIP premiums are statutorily set at 135% of the average premium charged for a standard individual health insurance policy with comparable coverage.

Early in March, more than 25,000 individuals interested in purchasing health insurance coverage through CHIP received informational letters, followed by booklets describing CHIP benefits, application instructions, cost information and formal applications. Over the next few weeks, CHIP officially received over 1,900 applications and those received through April 21 and found to be eligible were targeted to begin receiving coverage in early May.

In November, the Board of Directors named Richard W. Carlson as the first Executive Director of the Plan, effective on December 1. Carlson had served as Assistant Director of the Department of Insurance since August 1981.

On December 21, the Board voted to raise the enrollment cap to 4,500 based on actuarial projections which indicated that an additional $12 million appropriated for FY 90 was adequate to support a higher enrollment level. At year end 1989, CHIP insured about 3,800 people.

Senior Health Insurance Program

In January 1989 the Senior Health Insurance Program (SHIP) began its first full year of operations. SHIP operates in conjunction with community based organizations that serve the needs of senior citizens. These local sponsoring organizations provide SHIP with the office space and volunteer network that offers one-to-one counseling to senior citizens with health insurance problems and concerns.

Each volunteer initially receives a minimum of twenty-one hours of training from Department staff members in such areas of health insurance as Medicare, Medicare supplements, long term care insurance and consumer protection. Ongoing training classes keep them abreast of the rapidly changing health insurance market for senior citizens.

During calendar year 1989, 58 SHIP units served 39 Illinois counties, counseling over 1,000 senior citizens and providing over 2,000 hours of volunteer time.

SHIP volunteers also provide the Department of Insurance with information on the types of problems senior citizens are experiencing with their health insurance coverage and/or insurance producers in their communities. This information enhances the Department's efforts to better protect and serve the senior insurance consumer.

To date, programs have been developed on long term care and Medicare supplement insurance to be used for industry and consumer groups.

Plans for 1990 call for training to be completed in several additional counties throughout the state with an emphasis on Cook County. Multilingual units will also be established in the appropriate neighborhoods.

Fiscal Information

The statistical data that follows shows that the Department of Insurance brings in much more revenue than it spends. For FY 89 total collections amounted to $211.5 million. Of that amount, General Revenue Fund collections accounted for $193.5 million, whereas appropriated funds were only $10.5 million.

The year–to–date comparison of taxes and fees collected indicates a 9% increase compared to the FY 88 revenue. This increase is reflected in the privilege tax receipts which were up 6% from last year. The privilege tax is paid by all foreign and alien companies and is based on their premiums written in Illinois.

Consumer Complaints

During 1989, the Consumer Services Section investigated 12,096 complaints, categorized by reason as follows: claim handling 7,445 (62%); policyholder service 2,061 (17%); underwriting 2,036 (17%); and marketing and sales 554 (4%). In addition, the Chicago and Springfield offices handled a combined total of about 70,000 telephone inquiries.

The major emphases during the calendar year were the mandatory automobile insurance law effective on January 1, 1990, affordability/availability of health insurance for small employers and the Medicare Catastrophic Repeal Act.

The **Consumer Outreach Unit** addressed some 16,00 people including senior citizen groups, high school consumer education classes, service groups, women's clubs and community action organizations and participated in several radio call–in programs that reached an estimated audience of 110,000.

The program is designed to explain the Department's role in insurance regulation and consumer protection, as well as to provide information on specific lines of coverage such as Medicare supplement, long–term care and automobile insurance.

Chicago area consumers were served by the **Consumer Information Unit** which helps walk–in complainants and provides translation for both Spanish and Polish speaking individuals.

Both the Springfield and Chicago offices are equipped with TTD systems to assist the hearing impaired.

Illinois Cost Containment

The second *Annual Report to the General Assembly* on cost containment was issued in April of 1989. The 1989 report represents the Department's most comprehensive effort to date to analyze the insurance industry and present a clear picture of the Illinois marketplace. The report is mandated by the Insurance Cost Containment Act of 1986.

Additional studies published by the Cost Containment Section during the year included:

- *Liability Insurance and Day Care Operations*–a survey of 50 day care centers and 359 day care homes issued in September. The study was prompted by the rapid escalation in insurance rates for day care centers and was conducted to assure there was adequate and available coverage at a stabilized price.

  Of the day care centers responding, all had liability coverage and only 15 percent had experienced difficulties in obtaining insurance, although 64 percent had seen a recent increase in premiums. At least twenty–three insurance companies currently insure day care centers in Illinois.

  The study also showed that at least three major insurance companies offer riders to homeowners policies for operators of day care homes, with rates ranging from $35 a year for three children to as much as $140 a year for six children.

- *Private Passenger Automobile Insurance Premiums and Homeowners Insurance Premium Comparison*–surveys of insurance companies writing the majority of homeowners and automobile insurance in Illinois, issued in October. The studies were published in response to nationwide publicity over the state of the insurance industry and premiums charged for these coverages.

  The companies were asked to develop weighted premiums for Illinois and other selected states for the three year period 1986–1988. In both studies, the composite premiums for Illinois cities are significantly lower than the average when compared with premiums in fifteen other states.

  The two studies will be conducted on an annual basis.

During 1989 insurance cost containment annual fees amounted to $1.3 million.

Policy Forms Review

The **Life/Accident and Health Product Evaluation Unit** reviewed approximately 3,400 form filings during the year, of which 81% were approved for Illinois use. The remainder were rejected for failure to comply with Illinois insurance laws or regulations. Of the 1,700 rate filings received, 1,400 were formally filed and the remainder were withdrawn as unjustified.

The **HMO Unit** experienced an alarming acceleration of consumer complaints. During 1989 the total received was 879 compared to only 539 for 1988. This area is extremely volatile and bears more scrutiny in 1990.

The policy forms data base program received trial historical data tapes from the pilot companies for test runs. The complete all-industry data base is still targeted for operation in 1990.

The **Property/Casualty Product Evaluation Unit** received 22,045 forms filings and 3,873 rates filings during the year.

This unit also assisted in the implementation of the policy forms filing fee legislation that becomes effective in January of 1990.

Market Conduct Examinations

In 1989, the Market Conduct Examination Section conducted 42 examinations. The major areas of concentration were target and special examinations, as well as the examination of domestic HMOs.

Examinations confined to underwriting areas such as private passenger auto, workers compensation, homeowners and residential fire, resulted in the return of $121,000 in premium overcharges to Illinois policyholders and $167,290 in claim underpayments to Illinois claimants. Market conduct examinations also resulted in company civil forfeitures in excess of $150,000.

The first segment of the market conduct annual statement was completed in 1989 with companies submitting a trial report to the Department in October. Full reporting will start in July 1990 and will allow the Section to prioritize companies for target examinations.

Producer Licensing

During 1989, the **Licensing Unit** issued 13,855 new producer licenses, 63,780 renewal producer licenses and 4,348 limited representative licenses, as well as numerous temporary licenses and premium finance company, public adjuster and third party administrator licenses. A total of 17,265 license examinations were administered.

The **Education Unit** completed one full year of computerizing its producer education records. Several fraudulent and duplicative course submissions were found which in previous years would not have been detected. In 1989, there were 385 providers offering 2,719 courses which satisfactorily met Illinois prelicensing and continuing education requirements.

The Department has established a task force to review 50 Illinois Administrative Code 3119 (Education). Although, the task force has not yet concluded its entire review, several sections of the Rule have been analyzed for possible revisions.

Producer Regulation

During 1989, the **Producer Regulatory Unit** conducted 83 financial examinations and 377 investigations which resulted in 95 revocations and 101 stipulation and consent orders. Civil forfeitures for the year totalled $97,850.

Another Department task force was established to review 50 Illinois Administrative Code 3113 (Premium Fund Trust Account) and made minor revisions that will take effect in early 1990.

Earthquake Preparedness

During 1989 the Director of Insurance was appointed to the Governor's Earthquake Preparedness Task Force which was given four principal objectives:

1. To assess the probability and vulnerability of seismic activity;
2. To determine the scope of the state's preparedness;
3. To examine the extent of public awareness about earthquakes; and
4. To develop recommendations on how to mitigate the affects of an earthquake.

To meet these objectives, the task force established five working committees assigned to: risk assessment, emergency medical care, mitigation, public awareness and education, and state government preparedness. Director Stamp was named co–chairman of the Risk Assessment Committee and a member of the Mitigation Committee. The committees plan to hold public hearings beginning in January 1990.

Mine Subsidence Insurance

In late September of 1989, several new homes in a subdivision on the west side of Springfield in Sangamon County were severely damaged by a mine subsidence. The event received a great deal of media exposure and was the subject of a public meeting jointly sponsored by the Department of Insurance, the Illinois Abandoned Mined Lands Reclamation Council and the Illinois Mine Subsidence Insurance Fund.

When it was revealed that nearly 50% of the property owners in Sangamon County were not covered by mine subsidence insurance, the Department issued public statements to encourage property owners to buy the coverage and requested insurers to more carefully explain the product both to new policyholders and renewal policyholders who had previously rejected the coverage.

The Department also assisted in drafting legislation to increase the maximum amount of coverage available from $100,000 to $350,000.

Illinois Automobile Assigned Risk Plan

The commercial automobile insurance program of the Illinois Automobile Assigned Risk Plan continued to reflect a softening of the commercial lines market as it recovered from the availability crisis of 1985–1986. The Plan's commercial automobile writings dropped to approximately $24,280,000 in 1989 from $27,271,098 in 1988 and from an all time high of $40,000,000 in 1987.

Through the cooperative efforts of the Department and the Governing Committee of the Illinois Automobile Assigned Risk Plan, private passenger automobile rates were reduced by an overall state average of 18.4%. This reduction was significantly timely in light of the mandatory automobile liability law which becomes effective January 1, 1990.

It is estimated that there are approximately 1.5 to 2 million uninsured motor vehicles in Illinois and it is expected that under the new law a significant number of previously uninsured owners will apply for coverage through the Assigned Risk Plan. To assure continued prompt service, the Illinois Automobile Assigned Risk Plan expanded its operations in several areas, including increased office space, staffing levels, training for temporary help and computerization.

Illinois Workers Compensation Assigned Risk Plan

In November of 1988, the Director of Insurance disapproved a 36.9% rate increase requested by the National Council on Compensation Insurance for workers compensation insurance placed in the residual market. On April 14, 1989, that increase was subsequently reduced to 20.4%.

Among the major points of contention during the three months of rate hearings were the amount of investment return insurance companies are entitled to receive while underwriting a residual risk and provisions in the ratemaking formula for certain expenses. The requested increase was reduced because NCCI failed to satisfactorily justify these components.

Later in the year, in cooperation with the Governor's Workers' Compensation Advisory Task Force, the Department developed an incentive program to reduce the number of risks in the Illinois Workers' Compensation Assigned Risk Plan. The program, commonly referred to as a take–out provision, provides insurance companies a three year credit against their assigned risk assessment for each risk they remove from the assigned risk plan. Scheduled to become effective in February 1990, the program is anticipated to greatly reduce the 44,000 risks written in the assigned risk program and to give employers an opportunity to provide workers' compensation coverage at reduced premiums.

Operations and Marketing

During 1989, availability/affordability problems in certain lines of insurance continued to create an atmosphere conducive to fraudulent activities by insurance promoters. The Operations and Marketing Section directed most of its efforts to the unauthorized representation of licensed insurers and to the activities of unlicensed companies operating in Illinois.

As a result of investigations, thirteen entities were restrained from issuing worthless insurance paper in the State of Illinois. Six entities entered into stipulation and consent orders with the Department thereby bringing their operations into compliance with Illinois insurance statutes.

Working with the Office of the Special Deputy, the section continued to handle the affairs of eight unauthorized insurance entities that were under an order of conservation.

Operations and Marketing also continued to review the operations of administrators for service contracts and warranty programs. The Department has found some of the administrators to be operating as unauthorized insurance companies rather than acting as administrators for authorized companies.

Risk Retention Groups and Captives

The Federal Risk Retention Act of 1986 allows for the organization of both purchasing and risk retention groups, with marketing activity limited to commercial liability insurance.

Purchasing groups are organized for the purpose of purchasing insurance from a commercial insurer for their members. To solicit members they must register with the Director and provide a brief synopsis of their activities. Approximately 188 purchasing groups have thus far registered.

Risk retention groups are insurance companies organized to write only commercial liability insurance on behalf of their owner–members. Fifty–three (53) risk retention groups are eligible to write insurance in Illinois.

In 1987 the Illinois Insurance Code was amended to allow for the creation of captive insurance companies. A captive insurance company may be organized to write all types of commercial insurance other than workers compensation or it may be organized as a risk retention group and thereby restrict its marketing to liability insurance only.

In 1989 the Captive Insurance Act was amended regarding minimum capital and surplus requirements and to permit forms of letters of credit and reinsurance of workers compensation. In addition, subordinated debt may be issued with interest rates up to three points above prime.

Thus far, seven organizations have taken advantage of the liberalized provisions of the Captive Insurance Act.

Health Insurance Market

During 1989, the health insurance operations of insurance companies began to show signs of improvement. Rate increases, while still large, were being implemented to keep pace with increases in claim costs and not for catch–up purposes. The major unresolved issues in 1989 were:

- solving the problems of the uninsured;
- developing new cost containment features; and
- developing long–term care products.

Cost Containment

The development of new cost containment features poses several problems. First, employers are seeking new methods to contain costs. Some might be disruptive of established health care practices and could expose companies to unintended risks. Secondly, data to price the new features is lacking. This could lead to another series of years with inadequate premiums.

The Department's risk ratio rule and health claim reserve monitoring system will be useful tools to deal with these issues from a regulatory standpoint.

Long–Term Care

Long–term care insurance products continue to develop and evolve as consumer needs and regulatory issues come to light. Calendar year 1989 saw changes in the NAIC Model Act and regulation in the area of home health care benefits and gatekeeper mechanisms. During 1990 serious consideration will be given to:

- nonforfeiture benefits;
- inflation protection; and
- loss ratio monitoring.

The Illinois Department is in the forefront of developing sound regulatory approaches to each of these issues.

Life Insurance Market

The major issue in the life insurance market in 1989 and for the near term future is the stability of the high yield (junk) bond markets. High yield bonds have been the mainstay of several large insurers that issue annuity products. The Department is actively involved in monitoring and developing strategies for protecting the interests of policyholders who have purchased contracts from these companies.

Another issue that surfaced in 1989 is the attachment of "living benefit" riders to life insurance policies. Rider design is extending beyond long–term care benefits into accelerated benefits paid upon either the occurrence of specified conditions or the determination of a high probability of death in the near future. Consumer concerns are at the forefront of the Department's regulatory activity in this area.

Financial Examinations

Financial examinations are conducted by two separate examination sections. During 1989, the **Life, Accident & Health Section** conducted 23 comprehensive financial examinations and 13 compliance, targeted or special examinations performed on a non–regular basis. In addition to examining all domestic companies, this section also performs actuarial valuations to determine the adequacy of life insurance reserves. During the past year, 20 actuarial examinations were completed.

The **Property & Casualty Examination Section** completed a total of 52 examinations (42 comprehensive, 7 compliance and 3 special/targeted). This section also completed a total of 13 farm mutual examinations.

Compliance examinations consisted of three incorporation exams and four increase in capital exams. The three special examinations covered books and records, current loss and loss expense reserve adequacy, and an Illinois licensed company, domiciled in another state.

The efficiency of financial examinations is aided considerably through the use of personal computers and the Pansophic Easytrieve System. Both are available and are used to some extent on all of the large assignments.

In addition, a Computer Audit Specialist trains and assists examiners in developing audit techniques used in the examination process. Computer expertise allows examiners to complete many facets of examinations in a much more thorough manner and to complete more difficult analysis of claim reserves and other areas of the examination process.

The entrance into the property and casualty insurance marketplace of new entities with unique operations, such as risk retention groups and domestic captive insurers, has necessitated the design of specialized exam scopes to allow for more meaningful audits. A computerized report format is also being developed.

Both Financial Examination Sections are also in the process of developing a revised format to include reporting in the following areas:

- business written;
- production sources/marketing strategies;
- claims practices;
- information systems and controls;
- rating methodology; and
- management functions (including delegation of authority).

Another program being developed is on–site visits of newly licensed and organized companies. These visits would be conducted within one year of either licensure or organization and would also include situations where a change in management control occurred.

New Initiatives

In September of 1989, a Regulatory Action Section was established to develop regulatory strategies for those insurance companies needing greater regulatory attention.

Later in the year, a Property & Casualty Actuarial Section was formed in direct response to demands for early detection of financially unstable insurance companies. The actuarial staff will render technical assistance regarding loss reserves, profit calculations, ratemaking, financial condition of companies, reinsurance, and other property and casualty financial matters.

In many ways, the P&C Actuarial Section will mirror for property and casualty companies, responsibilities already assumed by the Life A&H Actuarial Section. The initial emphasis will be on loss reserve testing, reinsurance, and statistical analysis. The staff will be expanded during the coming year.

Legal Division

During 1989, several new parts and amendments were added to 50 Illinois Administrative Code, the official Rules and Regulations of the Department of Insurance:

Improper Claims Practices

On January 11, 1989, the Illinois Department adopted major amendments to **Part 919**. The amendments promulgated tougher standards regarding claim settlement practices with particular emphasis placed on tightening standards for the settlement of automobile claims. The new standards will provide increased protection to insurance consumers in the settlement of their claims with insurance companies.

Advisory Organizations Rules and Rate Filings

Effective January 23, 1989, the Department amended **Part 754** to update the Automobile Annual Premium Comparison form that all companies writing private passenger automobile insurance in this state must file when the rates for such coverages are changed. The data to be filed includes rates per certain age and geographic categories. This information is maintained and compiled by the Department and supplied to all public libraries in the state.

Foreign and Alien Insurer Annual Audited Financial Reports

On February 10, 1989, the Department adopted the Foreign and Alien Insurer Annual Audited Financial Reports rule, **Part 601**. Under this rule all foreign and alien insurers licensed in this state must file an independent audit report of their financial condition for the previous calendar year. The rule sets forth standards for the content of such audit reports and the minimum qualifications for persons who may conduct such audits.

Medicare Supplement Insurance

On March 13, 1989, the Department promulgated **Part 2011**, the Medicare Supplement Transitional rule. This rule established the transitional requirements for the orderly conversion of existing Medicare supplement insurance benefits and premiums to meet the new requirements of the Medicare program revisions enacted by Congress in the Medicare Catastrophic Coverage Act of 1988.

In a related rulemaking, the Department amended **Part 2008**, Minimum Standards for Individual and Group Medicare Supplement Insurance, effective May 23, 1989. The purpose of this amendment was to bring the Medicare supplement minimum benefit standards into conformance with the new federal Medicare requirements enacted by Congress in the Medicare Catastrophic Coverage Act of 1988.

Pensions – Definitions of Salary

On March 15, 1989, the Department adopted amendments to **Part 6302**, Definition of Salary, to clarify those types of pay which cannot be considered "salary attached to rank" for pension determination purposes.

Notice of Eligibility for CHIP

Part 6701, the Department Rule on Notice of Eligibility for the Comprehensive Health Insurance Plan (CHIP), became effective on April 18, 1989.

The rule requires all health insurance companies operating in Illinois to advise all applicants rejected for coverage due to health reasons of their potential eligibility for health insurance coverage under CHIP. The notice of eligibility must be provided with the notice of declination and must include, at a minimum, language specified in the rule.

Fees for Various Certificates

On July 21, 1989, the Department repealed **Part 2502**, Fees for Various Certificates under Section 408, because it had been superseded by statutory amendments.

Subordinated Indebtedness

On August 14, 1989, the Department adopted amendments to **Part 201**, Subordinated Indebtedness. As with amendments to Parts 301 and 401 which follow, these amendments established standards for the repayment of subordinated indebtedness by domestic stock insurance companies. Repayment of such debt is limited to repaying only amounts that will not decrease the company's surplus to an unreasonable level.

Accumulation of Guaranty Fund or Guaranty Capital Reporting and Accounting of Such Indebtedness

On August 25, 1989, the Department adopted amendments to **Parts 301** and **401** relating to repayment of guaranty fund certificates by domestic mutual insurance companies and reciprocal insurance companies, respectively. The amendments established stricter standards for repayment of guaranty fund certificates to ensure that such repayment will not adversely affect the company making the payment.

Summary of 1989 Insurance Legislation

Automobile Insurance—Bills Passed

Senate Bill 293 (P.A. 86–0699) Effective 1/1/90. Amends the Insurance Code to provide that an insurance company may withhold payment of underinsured coverage until the underinsured driver's company pays first. However, this provision shall not apply where the company and its policyholder agree on the amount of bodily injury damages.

When there is such agreement, payment to the policyholder will not exceed the difference between the amount due from the underinsured driver's company and the limits of underinsured coverage in the policyholder's policy. Such agreement requires that the policyholder has complied with the other terms of the policy and has filed suit against the underinsured vehicle owner.

Senate Bill 790 (P.A. 86–0841) Effective 1/1/90. Amends Sections 143a and 1432–2 of the Insurance Code to restrict the application of the requirement for uninsured motorist coverage and the requirement that insurers offer additional uninsured motorist coverage equal to the insured's own liability limits to those required to be registered in Illinois.

Deletes existing provision that these requirements apply to vehicles principally garaged in Illinois.

Clarifies that these mandatory offers regarding uninsured motor vehicle property damage coverage and additional uninsured motorist liability coverage must be made at the time of application, and need not be made again at the time any substitute, amended, replacement or supplementary policy is issued to that insured.

Senate Bill 922 (P.A. 86–0880) Effective 1/1/90. Amends the Motor Vehicle Code to change the definition of "for hire" to include leased or rented vehicles and motor vehicles used for transportation of passengers. Defines "to rent" and "to lease."

Provides that motor vehicles which are leased for a period of one year or more are no longer required to file proof of insurance or other financial responsibility in accordance with the Vehicle Code sections governing leased or rented vehicles, but are subject to the insurance requirements established by the mandatory insurance financial responsibility laws.

Clarifies which policies of insurance meet the financial responsibility requirements for rented and leased vehicles. Amends the prohibition against the sale of collision damage waivers to make clear that any person who rents a motor vehicle may not offer a renter a collision damage waiver or any other type of waiver or insurance as a separate item or charge which provides coverage for a deductible and any other extra charge.

Exempts new car dealers from section prohibiting the sale of collision damage waivers when providing "loaner" vehicles free of charge to customers while their vehicle is being repaired by the dealer.

Senate Bill 1032 (P.A. 86–0437) Effective 1/1/90. Amends the Insurance Code to require companies to provide automobile loss information to their policyholders within 30 days of written request. Expands the definition of automobile policy to include a named non–owner and policies insuring more than four automobiles. Adds a definition of "premium."

Allows insurance companies to use commercial mail delivery for mailing of cancellation or non–renewal notices. Adds requirement that such notices specify the amount of the premium due and the name of the person(s) authorized to receive the payment. Prohibits a company from non–renewing an auto policy for the sole reason of reporting claims when such claims were closed without payment.

Provides that a company may not cancel a fire and extended coverage policy, except for specific statutory reason, after such policy has been in effect for 60 days, rather that one year. Prohibits non–renewal of auto policies because of the insured's employment. Contains other housekeeping measures.

Senate Bill 1426 (P.A. 86–779) Effective 1/1/90. Amends the Vehicle Code to provide that new car dealer loaners shall not be subject to rental agency insurance restrictions for loaner cars provided free of charge.

House Bill 573 (P.A. 86–0783) Effective 1/1/90. Amends the Insurance Code to require insurance companies to notify policyholders in writing of the availability of higher deductibles on their auto insurance policy and that a premium savings could result from the election of such higher deductibles.

House Bill 1080 (P.A. 86–149) Effective 8/11/89. Permits the Secretary of State to exempt certain religious organizations from the mandatory motor vehicle liability insurance provisions of the Illinois Vehicle Code. Also provides that the Secretary of State by rule and regulation shall establish the minimum amount of credit required for a religious organization exempt from mandatory motor vehicle liability insurance provisions of the Vehicle Code. Makes other change relating to mandatory motor vehicle liability insurance.

House Bill 1842 (P.A. 86–0370) Effective 8/30/89. Amends Sections 143.14, 143.15, and 143.16 of the Insurance Code to require notices of auto insurance cancellation to be mailed to the mortgagee or lienholder, if known, as well as to the named insured.

Requires the primary company to provide an extension of benefits for a reasonable period of time and a notification to the policyholder (for delivery to covered employees or members) of the date of discontinuance. Provides that the subsequent insurer must allow otherwise ineligible people (such as dependents) to be covered under its plan in a way which treats them no less favorably than had the change in insurance not occurred. Requires the Department of Insurance to promulgate rules for implementation.

House Bill 1155 (P.A. 86–0547) Effective 1/1/90. Amends Section 1303 of the Insurance Code in regard to the Illinois Comprehensive Health Insurance Plan. Provides that an insurance producer is not liable for an applicant's failure to be accepted by CHIP unless such failure is due to an act or omission by the producer that constitutes willful and wanton misconduct.

Clarifies that employees of the CHIP Board shall not be subject to the Illinois Personnel Code. Clarifies that the CHIP Board shall not be subject to the Illinois Purchasing Act.

House Bill 1723 (P.A. 86–0600) Effective 9/1/89. Creates the Limited Health Care Service Organization Act which provides for the operation and regulation of limited health service organizations in specific health care fields (ambulance, dental, vision, pharmaceutical and podiatric services).

2) a mammogram every 1 to 2 years, even if no symptoms are present, for women 40 to 49 years of age;

3) an annual mammogram for women 50 years of age or older.

Provides that such coverage shall be at least as favorable as for other radiological examinations and subject to the same dollar limits, deductibles, and co–insurance factors. "Low–dose mammography" as referred to above, means the x–ray examination of the breast using equipment dedicated specifically for mammography, including the x–ray tube, filter, compression device, screens, films, and cassettes with an average radiation exposure delivery of less than one rad mid–breast, with two views for each breast.

House Bill 2657 (P.A. 86–0665) Effective 1/1/90. Adds Section 357.31 to the individual accident and health part of the Insurance Code to provide that, in the event of the death of the policyholder, the company must refund any unearned premium on a pro rata basis to the month of the policyholder's death.

Prohibits companies from computing such refunds by use of a short-rate table. Clarifies that such refund shall not impact pending claims and any other insureds' coverage shall not be affected by the refund of the deceased policyholder's premium, nor shall other insureds be relieved from any obligation to pay the required premium for such coverages.

House Bill 2737 (P.A. 86–0384) Effective 8/30/89. Amends the Insurance Code to expand the definition of "life insurance" to allow a policy to pay benefits prior to the insured's death in the event of a terminal illness.
